Functional workspaces

Air Flow Tiles. Perforated metal tiles facilitate important air circulation thus providing a healthy and more comfortable work environment

Low Panels define a space, but do not hinder teamwork. They are more cost effective and still allow for power and data wherever it is needed.

Accessory Hanging Tiles allow for a multitude of support components.

Finishes

Paint: Cream
Fabric: TFPF0603 Bluegrass
Laminate: Wilsonart 10776-60
Kensington Maple

Finishes

Paint: Black
Fabric: TFPF0601 Wheat

Why is TrendForm the value system?

Bridging the gap between Aesthetics, Design, Value and Quality, TrendForm dispels the misconception that tile systems should cost more than traditional monolithic panel systems. TrendForm is designed to adapt to your company's changing needs, now and in the future. Ease of assembly and disassembly using our patented connecting system permits unlimited design configurations. Change and reconfiguration of individual workspaces can be accomplished, with minimal personnel disruption, utilizing a combination of multiple tile options and component selections. Trendform is an independent laboratory tested design to meet BIFMA standards.

CUSP Office Products is committed to your office environment by offering a truly sustainable product (TrendForm Panel System) that can reduce the energy consumption, cut waste, and improve the overall efficiency of your facility. TrendForm offers practical and cost-effective solutions for interior movable walls specifically designed to address the challenges of sustainability. TrendForm also supports the U.S. Green Building Council's Green Building Design Criteria, providing a product that is designed for high quality performance, healthy, durable, affordable and environmentally sound workplaces.
